General Information

1.0 The Open University of Sri Lanka

The Open University of Sri Lanka (OUSL), which was established in 1980, is a national university constituted under the University Act No. 16 of 1978 and the OUSL Ordinance No. 1 of 1990 and has the same legal academic status as any other national university in Sri Lanka.

The academic programmes of the Open University have been designed, to enable persons aged 18 and over to pursue courses leading to Certificates, Diplomas, Degrees and Post Graduate Degrees/Diplomas in their own time and in their own homes.

The Open University comprises of a central Campus served by a staff working on full time basis.

The OUSL is a university which provides the ability to study at home as well as provides opportunities to pursue studies at a later stage in life than that which is provided by a conventional university. This is because the OUSL provides opportunities for those who have missed an avenue for higher studies to pursue their studies. In addition, the OUSL also provides opportunities for climbing up the ladder of academia through study programmes of higher academic levels.

Courses and Programmes

In the Open University vocabulary, a **course** is a **unit of study** which is generally completed within an academic year. A course can either be compulsory or optional.

A **programme of study** consists of a combination of compulsory and optional courses. To meet the criteria for the award of a Certificate, a Diploma or a Degree, it is necessary to complete a programme of study successfully.

A compulsory course is a course which is part of the structure of a study programme and must be completed by the students to fulfil the requirements for the award of the relevant certificate/diploma/degree.

The programmes of study offered by the Open University may belong to one of the following types:

1. Foundation Programmes
2. Certificate Programmes
3. Advanced Certificate Programmes
4. Diploma Programmes
5. Bachelor's Degree Programmes
6. Post Graduate Programmes
7. Continuing Education Programmes
8. Stand Alone Courses

Foundation Programmes provide opportunities to enrol in other study programmes. These Programmes are offered in two levels namely Level 1 (F1) and Level 2 (F2). A student who completes any Foundation Programme in a discipline such as Arts, Commerce, Physical Sciences, Biological Sciences, or Technological Sciences attains qualifications similar to the level required to enter a conventional University.

Stand-alone Programmes are not linked to any key Programmes. These can be followed according to the individual needs of a person.

The academic value of a **course** is expressed in terms of **Credit** rating. It does not mean a student's performance in an examination. (Eg. A Credit Pass at G. C. E. Ordinary Level or Advanced Level).

A credit is calculated on the basis of the number of hours a student has to spend on studies. Thus 18 credits means 450 (15 hours per week x 30 weeks) study hours. The number of hours to be spent on studying the course varies according to the credit value of the course. The maximum number of credits a student is permitted to register for during an academic year is thirty six (36). The minimum number of credits a student can register for during an academic year is eight (8).

Students who have enrolled for 36 credits may also enrol for **courses** designated as Continuing Education Courses up to a limit of further 8 additional credits.

Each course is assigned a course code consisting of seven (7) alphanumeric characters as follows (e.g.- [STP8301](#)):

- First two letters - The Department which delivers the academic programme (Table 1)
- Third letter - The Study Programme (Table 2)
- First digit - Level of study within the programme
- Second digit - Credit rating (Table 3)
- Last two digits - Unique serial number of course

1.2 Teaching Methods

Teaching Methods of the Open University are based on Multimedia.

i. Online learning

Related all online courses of this programme has developed in Moodle - LMS - Learn OUSL. You can log in to your course using your username and password. When you entering into the online course continuously you can be aware about essential learning materials and extra reading materials, announcements and activities. It is expected that you have to involve with self- learning with these online courses.

ii. Audio-Visual Aids

These are particularly important for the self-learner. Every Regional Centre of OUSL has the facilities to view/listen to the audio-visual (A-V) material on the courses. Especially an A-V centre is available at the Colombo Regional Centre (Nawala) for this purpose. It is open from 9.00 a.m. to 7.00 p.m. on weekdays and weekends for the use of students.

iii. Day schools and Counselling Service

Although the printed material and audio-visual aids are designed for students to learn independently, dayschools and tutorial sessions are also conducted at Regional and Study Centres to guide the students.

iv. Library Facilities

In all Regional and Study Centres, there are library facilities to a considerable extent. The library at Nawala is open for students from 9.00 am to 7.00 pm during weekdays and from 9.00 am to 6.00 pm during public holidays and weekends.

1.3 Evaluation Methods

Student attainment is assessed by means of Assignments [Continuous Assessments in the form of Written Assignments, Continuous Assessment Test (CAT) and Activity Based Dayschools and finally a Written Examination. Students are expected to complete a given number of assignments for each course. Evaluated assignments are returned to the students with comments and grades given by the marking examiners.

These assignments, which are considered to be a very important part of the assessment system of the OUSL, will differ from course to course. For example, laboratory work, written assignments, practical activities etc.

The details of assignments of each course will be informed to the students at the beginning of each course. After successful completion of Assignments, students could sit the final examination.

Students who do not obtain eligibility to sit the final examination will have to re-register for the particular course. Students who fail the final examination should re-sit the final examination; however, they need not complete the assignments again.
